

LUBE-GUARD Equipment Tags

Tags in a variety of colors

JAX LUBE-GUARD Equipment tags are an easy-to-use method to ensure that the correct lubricant is used on machinery. The equipment tag indicating the proper lubricant to use is fastened to the machinery. Tags are color-coded to coordinate with JAX LUBE-GUARD Wall Charts, Oil Safe® Containers and labels to ensure the correct lubricant is used for each application.

- Tags are printed on our durable credit-card style laminating printer
- Tested to withstand equipment washes
- Fastened to equipment with nylon band
- Tags include HMIS® rating information on the back
- Tags can be customized to include distributor's contact information
- Color-coded to coordinate with LUBE-GUARD container labels and wall charts
