

LUBE-GUARD

Tote-A-Lube Sample Assembly

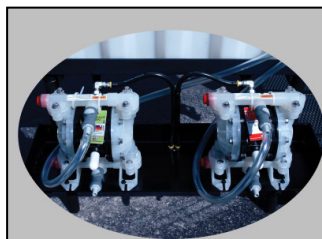

SYSTEM ADVANTAGES:

- Up to four stackable totes with drip pan and secondary containment per stack
- Diaphragm pumps using non-metallic dynamic transfer materials
- Reversible flow for drum-to-tote / tote-to-application pumping
- Low volume pump cavity for non-flushing fluid changes
- Redundant check quick connects for spill elimination
- FEP-Lined Tygon PVC Tubing
- Dedicated desiccant system for each fluid stored
- Items sold individually or as "kits" for complete modularity
- Online installation slide-show at www.xactfluid.com
